Tom

Attached are: the McMillan-McGee sampling plan dated December 11, 2019, and Geosyntec's comments on that sampling plan dated today, December 20, 2019.

These are not submitted for EPA review and comment, but rather as background materials to simply keep EPA informed about the progress to date in developing a sampling plan.

When in the future we do have a DNAPL area sampling plan that the Trustees' and their consultants believe is appropriate that plan will be submitted under separate cover for EPA review and comment.

Please pass the attached along to Matt Ohl as you deem appropriate based on the above understanding.

Please feel free to contact me if you have any questions.

Have a great weekend.

Norm Bernstein
